Script for TV Interview

INT: STUDIO:

The studio is set out with arm chairs for the presenter on the right and then there are seats for the actresses, write of the book and director on the left. Around the studio there are film posters which will be promoting the movie. There is a television set up in between the presenter and cast and crew of the movie to show the trailer.

PRESENTER:

Hey this is Laura and this is MTV, today I am interviewing the cast and crew of brand new movie 'Frenemies'.

(everyone claps)

PRESENTER:

So Yusra you are the writer of the storyline, what inspired you to write this story?

YUSRA:

Well... whilst I was at school there were two girls who hated each other and were always at each others throats and as we grew up it got worse so I decided to base the storyline on that.

PRESENTER:

Wow sounds like your school life was eventful! (laughs).
Mary how did you come to auditioning for the part in this movie?

MARY:

Well.. this is the first time that I have ever been in a Hollywood movie and its been a great experience and it's a different lifestyle compared to what I am used to so I am not used to it. I started off doing a little bit of acting as an extra and haven't had many big parts but my agent recommended it to me so I thought, well I might as well give it a go?

PRESENTER:

That sounds great, seems like you have come along way since you have started!
Vanessa, we have seen you in a couple of movies before and you have done a brilliant job! How did you find out about this movie?

VANESSA:

Well my agent rang me up and told me all about the movie and it sounded great and like it was my type of film so I decided that I should give it a go and it all went well from there onwards really!

PRESENTER:

Zoe, you're the director of this film, what made you want to direct the movie?

TV Script
